# the worktools collection

## perfect for industrial workplaces

The Worktools Collection is ergonomically designed for cashiers, dentists, filing clerks, and workers in assembly lines, job shops, and a wide range of other industrial environments. Each model adjusts easily for maximum freedom of movement, reducing fatigue and increasing productivity. Self-skin black polyurethane seating provides excellent cleanability and durability.

(sold separately)  
easy access to  
tools and supplies

## special information

Office Master Worktools are made from puncture-resistant black polyurethane and come with seven-year limited warranties and your choice of BC arms, 5 types of casters, and a tool tray option.

\*chair models WS22-WS25 have the same seat and back design, and all come with BC arm options.

**WS10**

Alleviates strain on back, hips, and legs and allows mobility without stressful bending. Pneumatic lift adjusts seat height with fingertip ease.

**WS12**

Has all the benefits of the WS10, plus tilting mechanism that tilts seat up to 20P. Pneumatic lift lowers chair for optimal tasking.

**WS15**

Sit/Stand Stool lets you sit while standing and alleviates stress points on lower back. Seat tilts up to 20P. A workstool that works for you all day long.

(WS15 only)

## sit or stand – dual positioning.

Ergonomically designed to support you while you work. Move effortlessly from sitting to standing to leaning back.

**WS22\***

Pneumatic lift, pivot backrest, and back adjustments articulate stress-free movement. Ribbed seats contour for comfort and prevent slippage.

**WS23\***

High-posture stool adjusts seat height 21"- 31". Same features as WS22 plus 20" footing for added support and mobility.

**WS24\***

Low-posture stool's tilting backrest and tilting seat conform to your preferred posture, maximizing work performance and minimizing fatigue.

**WS25\***

High-posture stool has the same versatile features as the WS24 plus 22"- 32" seat-height adjustability and 20" footing to support feet and total body.
